📍 Pune, Maharashtra

Profile

Enthusiastic and dedicated **Full Stack Web Developer** with a **Post Graduate Diploma in Advanced Computing**, specializing in **React.js**, **C#**, **.NET Core Web API**, and **SQL Server**. Strong foundation in web application development, object-oriented programming, and database management. Passionate about learning new technologies, writing clean and efficient code, and contributing to dynamic development teams to build innovative, user-friendly software solutions.

Professional Experience

Software Developer

Pune, India

- Worked as a Full stack Developer using .NET Core, React.js, and SQL server.
- Developed modules for Learning Management System (LMS) and HRMS projects.
- Designed and integrated RESTful APIs using .NET Core Web API for key business functions such as employee tracking and course management.
- Created responsive, dynamic frontends using React.js. Ensured code quality, security, and performance across all layers of the application.

Projects

Learning Management System (LMS)

Technologies: React.js, .NET Core Web API, SQL Server, HTML, CSS, JavaScript.

DESCRIPTION: Fine-tuned a robust and scalable Learning Management System to manage employee training programs, course modules, and assessments. Designed and implemented RESTful APIs using .NET Core Web API for user management, course scheduling, and progress tracking. Created dynamic and responsive UI using React.js with custom components. Optimized complex queries and stored procedures in SQL Server for reporting and analytics.

Technical Skills

Frontend Development:

React.js, HTML5, CSS3, JavaScript, Responsive Web Design

Backend Development:

.NET Core Web API, C#
Strong understanding of Controllers, Models, DbContext, Dependency Injection, and Request Flow in ASP.NET ☑ Core

Database Management:

SQL Server, Database Design, Stored Procedures, Query Optimization

Version Control & Collaboration:

Git, GitHub

Software Design & Principles:

Object-Oriented Programming (OOP), SOLID Principles, RESTful API Design

Additional Skills:

Debugging & Troubleshooting, Problem Solving, Agile Development Basics

Certificates

Post Graduate Diploma in Advanced

Computing(PG-DAC) — During my Post Graduate Diploma in Advanced Computing (PG-DAC) at CDAC, I gained hands-on experience in full stack web development, including React.js, C#, and ASP.NET ☑ Core Web API. I improved a strong understanding of Controllers, Models, DbContext, Dependency Injection, and the overall request flow in ASP.NET ☑ Core. My training also covered SQL Server for database management, RESTful API design, and software engineering principles such as OOP and SOLID. Additionally, I became proficient with Git for version control and enhanced my problem-solving, debugging, and agile development skills.

Education

Post Graduate Diploma in Advanced Computing (PG-DAC)

CDAC-ACTS,Pune

Bachelor of Engineering (B.E.)

Trinity College of Engineering and Research, Pune

Higher Secondary Certificate

Abeda Inamdar Junior College for Girls

Secondary School Certificate

Purandar Public School

Interpersonal Skills

- Strong Communication skills
- Problem Solving skills
- Attention to details
- Time Management
- Analytical thinking

Languages

C# | MySQL | Core Java

Interests

- Learning New Technologies
- Anchoring - Public Speaking
- Team Collaboration
